

Request for Merchants: SunButter® Natural No-Stir Creamy

Dear Store Manager: There's a great new product available from SunButter®, and I'd like to request that you add it to your inventory. SunButter® Natural No-Stir Creamy, made from specially roasted sunflower seeds, is a great alternative for the more than 3 million people in the United States that suffer from peanut allergies.

SunButter® Natural No-Stir Creamy has the same great taste of SunButter® Natural. Even better, it doesn't separate like other varieties, so there's no need to stir it. Thank you for considering adding this fantastic product to your store!
